Medicare: An Overview

Medicare is a Federal health insurance program. It covers most people 65 years old and over, some people younger than 65 with disabilities, people diagnosed with amyotrophic lateral sclerosis (ALS), and those with end-stage renal disease (ESRD).

Medicare has 4 parts. This fact sheet discusses Part A (Hospital Insurance) and Part B (Medical Insurance). For more information on Medicare Part C (Medicare Advantage plans) and Part D (the prescription drug benefit), please see our fact sheets, Medicare Advantage: An Overview and Medicare Part D: An Overview at cahealthadvocates.org. You can also see our Medicare Topics sections on Medicare Advantage and Prescription Drugs at cahealthadvocates.org.

Part A: Hospital Insurance

Part A covers most in-patient hospital care, some in-patient skilled nursing facility care, some home health care, and hospice care.

For people who become eligible for Medicare based on age, there is no monthly Part A premium if they have 40 or more quarters of Social Security credits (about 10 years of full-time work with 4 quarters per year) and who are eligible for Social Security or Railroad Retirement benefits. People with 30-39 Social Security quarters may buy Part A and pay a monthly premium of \$226. People with fewer than 30 Social Security quarters may purchase Part A and pay a monthly premium of \$411 in 2016.

For people younger than 65 who become eligible for Medicare based on disability, there is no Part A premium. However, if they return to work and earn income above a certain amount, they may keep Part A by paying the premium.

For people who qualify for Medicare based on ESRD, there is no premium for Part A.

Part B: Medical Insurance

Part B covers a portion of the Medicare approved costs for outpatient medical services such as doctors' services, outpatient hospital care, laboratory tests, outpatient physical and speech therapy, some home health care, ambulance services, and some medical equipment and supplies.

Part B coverage is optional. If you are covered by an employer group health plan (based on current employment), you may not need this part of Medicare until the employer-sponsored coverage ends. (See our Medicare Topics Section, "Other Health Insurance" at cahealthadvocates.org.)

The standard Medicare Part B premium for 2016 is \$121.80, but 70% of Medicare beneficiaries continue to pay \$104.90 (the standard amount for 2015). The remaining 30% of Medicare beneficiaries who have to pay the higher premium include:

- Newly eligible beneficiaries (whose Medicare becomes effective January 1, 2016 or later);
- Beneficiaries with higher income (see table below, page 3);
- Beneficiaries who do not have their Part B premium deducted from their Social Security check, and
- Beneficiaries who also qualify for full Medi-Cal benefits or a Medicare Savings Program (because Medi-Cal pays the Part B premium).

Medicare does not offer comprehensive coverage. Even though it pays for many preventive services at no cost-sharing and covers most medically necessary services, beneficiaries still have to pay deductibles and

coinsurance, plus the cost of items/services that Medicare does not cover.

after cataract surgery), dental care, and long-term care at home or in a nursing home, when the care needed is primarily custodial care or personal care services.

Some examples of items that Medicare does not pay for are: hearing aids, eyeglasses (except
